Who We Are and What We Stand For

ASSA ABLOY Door Security Solutions provides end-users with unsurpassed security, life-safety, aesthetic and sustainable solutions as well as essential support services to ensure well-functioning doorway systems. This is all accomplished by combining the strengths of industry leading door and hardware brands. Among our product innovations are WiFi-connected locks, Integrated Wiegand locks, Aperio® wireless locking devices and eCylinders, to go along with our robust mechanical hardware and patented key systems that are the base of facility security. We also offer a wide selection of decorative doors and hardware that enhance the aesthetics of any facility.

“Effective access control is both challenging and vital to providing a safe learning environment. ASSA ABLOY continues to provide advanced opening solutions that protect people during day-to-day operations and in emergency situations.”

Paul Timm, PSP,
President, RETA Security, Inc.

Safety, Security and Sustainability Begin at the Door

Putting Safety and Security First

Building an ideal learning environment requires careful balance of security and safety. ASSA ABLOY offers opening solutions that address both the code requirements and student needs that drive facility design. The design of a doorway must address challenges such as classroom safety, fire control, tornado and hurricane protection, ADA compliance and facility hygiene. ASSA ABLOY helps school districts and educational organizations determine the condition and readiness of all facility doorways. Our field experts help identify and solve code concerns before they become liability issues. Proper selection of doors and hardware can help your school:

- Secure classroom and perimeter doors
 - Improve emergency egress
 - Facilitate lockdowns
 - Harden building envelope with bullet and blast resistant openings
- Protect against devastating storms
- Ensure emergency egress and fire codes
- Meet ADA code requirements
- Enhance facility cleanliness with antimicrobial coating

Special K-12 Door Applications

Many schools require specialized doorways to meet unique safety and security challenges. ASSA ABLOY offers opening solutions for complex applications including:

- Vestibules for entryway safety
- Security and privacy sidelights
- Security-rated doors
- Storm-rated shelter openings

Sustainability

ASSA ABLOY provides complete door opening solutions that are environmentally sound throughout the entire production process and product life cycle providing your school facility with:

- Energy efficient door openings and access control products
- Sustainably sourced materials
- Acoustical control solutions
- Lower total cost of ownership
- End-of-life recycling program

In addition, green building programs like LEED for Schools and the Collaborative for High Performance Schools (CHPS) regard human health as one of their highest priorities. ASSA ABLOY has responded with a complete line of GREENGUARD Gold certified door opening solutions to meet the most stringent indoor air quality standards in the market.

An architectural rendering of a school building. The main building is a two-story structure with a large gymnasium on the upper level. The gymnasium floor is marked with a basketball court. The entrance area features a security vestibule with glass doors. The building is surrounded by a parking lot with several cars and a yellow school bus. There are trees and a flagpole in the foreground. The sky is clear and blue.

Exterior Gymnasium Doors

A safe learning environment is a critical component in achieving academic excellence.

Our experience and expertise in designing access control and security solutions specific to the education market is unrivaled.

This illustration depicts complete solutions that are ideal for various types of openings common in K-12 schools.

Contact your local ASSA ABLOY Door Security Solutions consultant for details or to schedule your complimentary site assessment.

“One of the great attributes of ASSA ABLOY’s integrated door security solutions is the durability of their products. We have products installed in a very rough West Texas environment with extreme temperatures and frequent dust storms and experienced zero product failure. As a systems integrator, we only recommend these products to schools because it saves us and the school district money over time.”

Randy Stumbo,
Partner, Entec Solutions

Safety and Security Assessment iPad App

Knowledge and Know-How

Training and Education

ASSA ABLOY Door Security Solutions offers a full range of formalized training programs that can be customized to your needs. From hands-on workshops to regulatory seminars, training may occur on site, at one of our conveniently located training centers, or online through ASSA ABLOY Americas University.

Visit www.assaabloydss.com to learn more about the training opportunities offered throughout the country or visit www.assaabloyamericasuniversity.com to view and participate in online courses.

Education Solutions Showroom

The ASSA ABLOY Education Solutions Showroom presents an overview of innovative door and hardware applications developed specifically to answer the needs of K-12 facilities. Explore openings and the full range of options that address the complex challenges of life-safety, security, sustainability, acoustics and more.

Site Assessment Surveys

Doorways are complex systems that are often overlooked during routine building inspections. Our K-12 security professionals offer complimentary site assessments to help school districts and educational organizations determine the condition and readiness of all facility doorways. Take control of school safety and security by scheduling a complimentary site assessment survey with a local ASSA ABLOY Door Security Solutions consultant.

“Based on the collective experiences of our Senior Security Consultants, we believe that ASSA ABLOY has consistently provided high quality security products for schools and higher educational facilities that exceed expectations for trouble-free usage and ease of maintenance.”
