Security

THE BEST PRESCRIPTION FOR SECURITY

HEALTHCARE PARTNERS

Here is an example of one of over 11,000 healthcare facilities STANLEY secures.

BAYCARE HEALTH SYSTEM

BayCare Health System is a leading community-based health system with more than 200 locations throughout the Tampa Bay area. BayCare connects patients to a complete range of preventive, diagnostic, and treatment services for any healthcare need.

STANLEY Security partnered with BayCare Health System to provide an enterprise access control solution, video management technology, and IP cameras to build for the expansion of their new heart center, hospital, and executive office buildings. Working together on this integrated security solution, BayCare has signed an agreement with STANLEY Security, making STANLEY their exclusive security provider for all their healthcare security needs.

Create a Secure Environment

WHO WE ARE

Simply put, we're your neighbors. With over 100 locations across North America, STANLEY service providers live and work right in your community and care just as much about the safety of our healthcare professionals and patients as you do. We've shown this dedication to providing comprehensive security solutions for over 83 years. Our 650 trusted STANLEY Security advisors and nearly 5,000 employees have secured over 11,000 healthcare facilities across North America. Our commitment to providing comprehensive solutions, support, and service is unwavering, and we look forward to working in your community. We hope to continue to earn your trust and team up with you to design a top notch solution that fits your facility.

WHY WE'RE HERE

As a leading security provider, STANLEY Security understands how important it is to partner with you to provide a safe environment for patients, healthcare professionals, and visitors. We realize that you are looking for powerful solutions for patient and staff protection and safety, workplace violence prevention, and crisis management and response. In addition, we understand your need to protect valuable assets such as medical equipment, patient records, pharmaceutical drugs, and more within your facility. STANLEY provides compliant systems that meet industry codes and standards while also documenting and capturing event activity when needed. We're here to take the lead and be your trusted source for your total healthcare security solution.

CUSTOM SECURITY SOLUTIONS

As your trusted advisor in securing your healthcare facility, we offer comprehensive security solutions for your unique environment. After implementation, we continue to deliver with expert service that's available when you need it. Here is a sampling of our healthcare security solutions.

- ▶ Patient Safety Hardware
- ▶ ICU/CCU Doors and Automatic Entrances
- ▶ Storage Solutions and Inventory Supply
- ▶ UL and Bilingual ULC Monitoring Services
- ▶ Real-Time, Online eServices

TECHNOLOGIES & PRODUCTS

Sonitrol Audio Intrusion

Sonitrol Audio Verified Intrusion systems provide the monitoring center valuable audio information when an alarm is triggered. With wall to wall, and floor to ceiling volumetric protection, Sonitrol intrusion detection reduces false alarms and provides valuable insight to law enforcement.

EyeLock Iris Biometrics

Revolutionary EyeLock iris identity authentication captures iris code data at a distance while in motion, providing the most advanced, cost effective, and efficient biometric identity authentication system available.

AeroScout RTLS

AeroScout Real Time Locating System provides complete enterprise visibility over a single unified solution, combining a wide variety of location, status, and condition information about valuable mobile assets.

STANLEY Access Technologies

Automated sliding, swinging and revolving entrances offer convenient, controlled ingress and egress for both interior and exterior applications. Innovative door controller microprocessor technology integrates with your facility's security system and monitors door safety sensors. Manual ICU/CCU door product line and available options for complete healthcare entrance solution. Specialized ballistic resistant doors are available for high-risk facilities.

BEST Patient Safety Hardware

BEST patient safety hardware resists ligature engagement on the lock trim while providing patients and staff with easy-to-operate hardware that eliminates the operational requirement "pinch & grasp" motion.

STANLEY Emergency Door Alarm

STANLEY offers easy to install full-width door sensor bars that are activated by attempts to drape an item over the door. The sensor bar incorporates a curved design providing maximum sensitivity to pressure.

UltraShield™ Antimicrobial Protected Coating

Antimicrobial coating incorporates a naturally-occurring silver ion exchange that creates a sanitary surface in which the microbe food and oxygen supplies are eliminated, effectively producing a long-lasting product protection. Coating is used on the BEST locks and Precision exit devices.
