Capping Press
This precision made press is half the price of most presses on the market and the only one that both caps and dumps interchangeable cores. Use with all standard "Best" style cores.

AO-CAP1.....$990.00

CapSaver™ Capping Press
The most time consuming task of capping cores is placing the small caps onto each chamber of the core. With the CapSaver™ Press, A-1's exclusive CapSaver™ strips will replace traditional caps. The CapSaver™ press actually punches and forms the caps as it seats them into the core

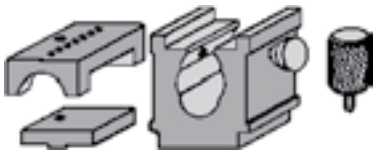

AO-CAP-5.....$1,395.00

CapSaver Strips
AO-CS-250 ..... (250) $200.00

Dumping Block
This tool allows you to dump and store the contents of dozens of cores. Includes ejector tool.

AO-TB3 .....$99.90

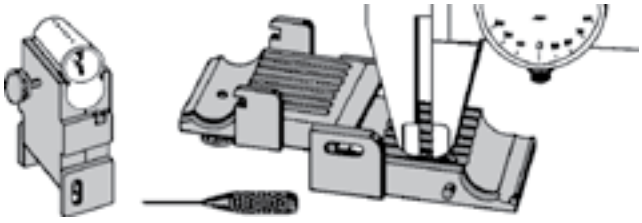

Capping Block
More than just a capping block, this tool is a complete and versatile workstation. Used to cap standard "Best" style cores including Falcon.

AO-TB2 ..... $163.90

Mean Green Machine
Designed for originating interchangeable core keys. Side mounted depth knob. Automatic key advance. Accessory vises available for Arrow Flexcore and other specialty keyways.

AO-GP201-A2.....$2824.00

Interchangeable Core Decoding Block
When a control key code must be found for an interchangeable core system, THE BLOCK is the solution. Simply drive the pin stacks into THE BLOCK where a pin tray keeps them separated and in order.

AO-TB1 .....$163.90

Interchangeable Core Stamping Plate
Stamp keys and I/Cores with A-1's stamping fixture. Manufactured of Delrin so keys won't jump around while stamping. Will hold other blanks including Schlage and Corbin/Russwin.

AO-35 .....$286.40

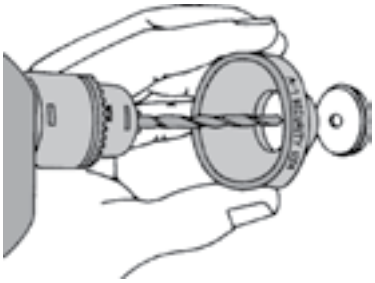

Plug Spinners
When the lock is picked in the wrong direction, simply wind the spinner in the direction you want, set the trigger, insert the blade into the plug, release the trigger and the lock will be picked in the correct direction.

AO-26 .....$55.00

Spinnakur Plug Spinners
This handy plug spinner is made of lightweight durable material and its streamlined design will fit in your shirt pocket.

AO-SP1 .....$75.90

Modular Drilling Jig
The safer and quicker way to drill out cylinders. Eliminates the risk of injury to hands and fingers. Includes interchangeable core jig and bit.

AO-DJ1 .....$145.54

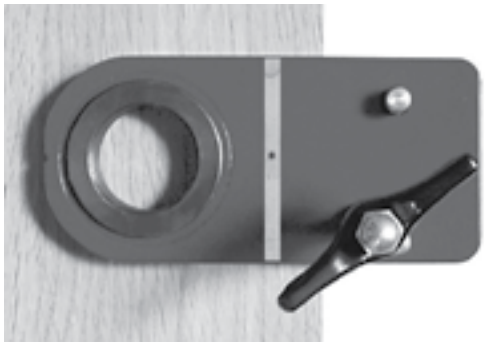

Cylinder Removal Tool
This heat treated cam action tool will remove stubborn mortise cylinders effortlessly. Automatically adjusts from 15/16" to 1-1/2" diameter.

AO-16.....$75.90

Cabinet Lock Installation Jig
Bulls Eye installation for cabinet locks, including I/C core. Manufactured of aircraft grade aluminum alloy and steel bushings, this jig is designed to install two styles of cabinet locks. Includes two bushings for 3/4" and 1-1/8" – 1-1/4" cam locks. Also includes built-in level.

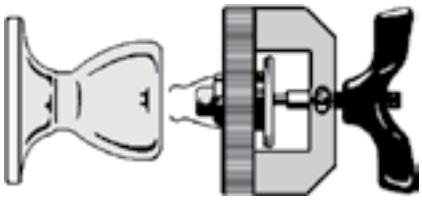

AO-BUL-1 ..... $185.00

Bullseye Installation Tool for Cylindrical Locks
Use this tool when locating and drilling crossbores and latch holes when installing cylindrical locks. Economically designed for locksmiths, this new tool is equipped to drill 1-1/2" and 2-1/8" crossbores and includes an automatic backset adjustment that requires no additional tools.

AO-BUL-2 .....$309.90

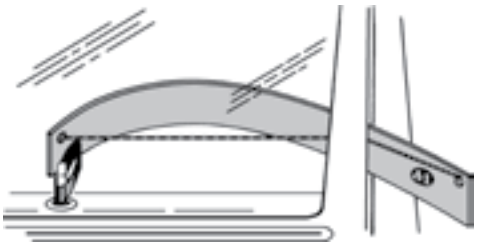

Cylinder Pullers
The Quick Pull Kwikset cylinder remover will pull Kwikset key-in-knob cylinders in seconds without disassembly of the lockset or removal of the interior knob.

AO-QP $149.90

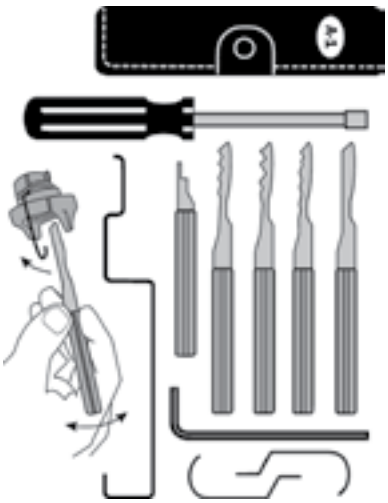

Quick Pull Replacement Blades

QPBL.....$9.90 (Package of 1)

Button Grabber Car Openers
The Vulcan Button Grabber's unique rubber loop grabs and holds vehicle door lock buttons without damage. Most versatile car Opening Tool on the market.

AO-CO2 .....$23.00

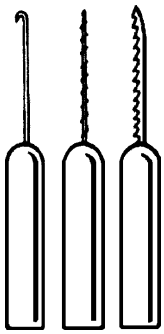

GM Ignition Service Kit
This set of tools will allow you to pick and decode General Motors 10-cut ignitions in minutes. Includes all required tools and leather case. Manual by Carl Stramer.

AO-PS2 .....$275.90

G-Pull Lock Puller
Plug puller for most General Motors trunk and deck plugs. Pulls the plug in seconds without scratching the paint or bending the vehicle sheet metal. Can also be used on some foreign vehicles.

AO-GP1 .....$118.16

Broken Key Pullers
A pack of 3 durable, effective Key Extractors. Includes .040 Spiral, Saw Tooth & Hook.

AO-27 .....$33.00

Broken Key Pullers
Features 4 Key Extractors – hook, saw tooth, large & small spiral in a leather case.

AO-KP1 .....$37.90

Pin Tray
This waffle tray keeps pins, springs and plugs neatly separated in numbered pockets. Stackable. Coated metal.

AO-WT1 .....$43.00

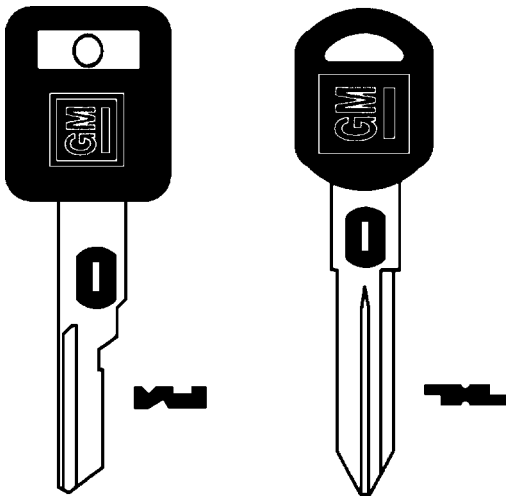

Kelly Klamp
A 3rd hand for installing overhead Magnetic Locks.

AO-K100.....$149.00

Shim Holder with Shims
Handy tool to hold curved shims firmly without cutting your fingers.

AO-18 .....$31.90

PAK-A-PUNCH™
Key Punch

The industry's most versatile and economical portable key cutter.

AO-PAK1 .....$879.00

Strictly for "Best" style interchangeable cores. Cannot be converted or used with any of A-1's QUICKCHANGE KITS. Includes a high impact plastic carrying case and a key decoding gauge for A2, A3 and A4 IC systems.

AO-PAK3 .....$879.00

Will punch domestic and foreign vehicle blanks. Offers interchangeable punches and dies so that you can punch various angles of key cuts with one machine. Standard with the 90° cutter. Requires QUICKCHANGE KITS of your choice.

AB-83/45-1000	Russwin D1,2,3,4	**$34.14**
AB-83/45-3000	Schlage C thru L	**$34.14**

The convertible ABUS 83/45 will operate using either key retaining or self-locking mechanism. To change the function of your padlock follow this simple procedure.

1. Remove the phillips head screw in the shackle hole.
2. Remove the cylinder using the key.
3. For self-locking: remove Z-Bar.
4. For key retaining: insert Z-Bar with the red dot looking at you.
5. Reassemble the padlock by replacing the cylinder, it may be necessary when converting to the key retaining function to gently turn the key to allow the cylinder cam to click into the bolts. The cylinder should be flush with the base of the padlock.
6. Replace the phillips head screw and tighten.

Enclosed end

Convenient knob

File Cabinet Bars

Enclosed end for added security and a modern look. Convenient knob for easy smooth operation Available in 1, 2, 3, 4, and 5 drawer cabinets

AB-MKL3	**$51.11**
AB-MKL4	**$54.82**
AB-MKL5	**$60.74**

Deadlatch Exit Paddles

An alternative to knob or lever handles. Makes opening a latched door as natural as opening an unlatched one – just push or pull in the direction the door swings. Available for any Adams Rite Series 4500 or 4700 deadlatch (except 4750) or MS+1890 lock/latch. Extruded aluminum paddle. Zinc alloy escutcheon with black Ritecoat finish. Cam Plug furnished for use with Series 4500 or 4700 latches. (Not used with MS+1890 lock/latch). Secured in latch body by cylinder setscrew, plug is also rigidly tied to escutcheon by hardened steel pins.

Deadlatch Paddle 4590

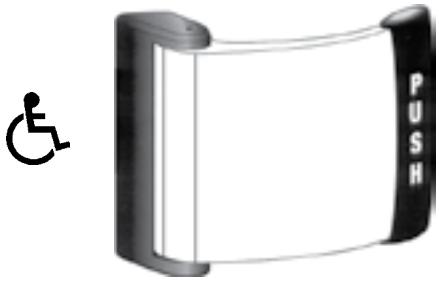

Part No.	Description	Price
AD-4590-01	Pull to left	**$110.16**
AD-4590-02	Push to left	**$110.16**
AD-4590-03	Pull to right	**$110.16**
AD-4590-04	Push to right	**$110.16**

Deadlatch Paddle - 4591 with Dogging Feature

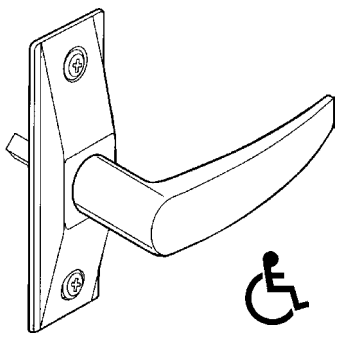

Turning Hex key in escutcheon holds the paddle down. Dogging key provided.

Part No.	Description	Price
AD-4591-01	Pull to left	**$142.00**
AD-4591-02	Push to left	**$142.00**
AD-4591-03	Pull to right	**$142.00**
AD-4591-04	Push to right	**$142.00**

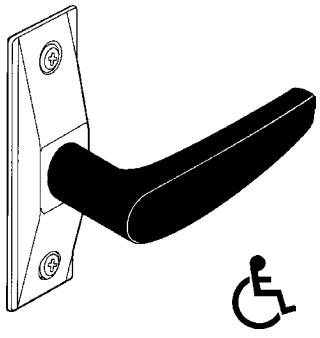

Deadlatch Handles

Designed to operate 4500 or 4700 Series latches (except 4750) by a natural downward hand movement, these handles incorporate an activator cam disc that mounts on the handle escutcheon and fits solidly into the cylinder hole of the latch. Not intended for use as a door pull. All three handles use the same 1-3/8" x 4" Escutcheons designed to match narrow style doors. ¼" square heat-treated spindle is part of escutcheon assembly. Ritecoat #130 finish.

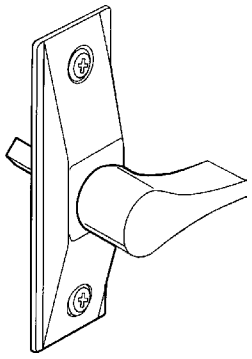

Lever of satin chrome plated zinc alloy is shaped to fit the hand, with a concave thumb-rest portion that tends to keep knuckles and thumb safely away from the jamb. US26D

AD-4560 .....$52.80

Lever of black satin nylon. Shaped similarly to 4560 for convenient, safe operation. Nylon material remains comfortable to the touch even in very hot or very cold environments.

AD-4561 .....$52.80

Thumbturn or minimum practical length is designed to offer a firm grip to the fingertips. Ideal for doors where latch is operated infrequently or in emergencies only. US26D

AD-4565 .....$52.80

Deadbolt

Bolt 5/8" x 1-3/8" x 2-78"
8-ply laminated stainless steel
Alumina Ceramic core 1-3/8" throw

Backsets 31/32", 1-1/8", 1-1/2"
Case 1" x 6"
Accepts standard mortise cylinder (not included).

Narrow Stile Surface Mounted Mortise Exit Devices

> Grade 1 handed device for wood & hollow metal doors with minimum 2" stile
> Standard sizes – 30", 36", 42" & 48" (can be field cut to next smallest size)
> Available finishes: 313, 335, 628, US3, US4, US9, US10, 10B, US32, US32D
> Available trim designs: (see trim descriptions on next page) 01, 02, 03, 08, 09, 11, 12, 14
> Designed to fit standard cutout used for the Adams Rite MS Deadbolt on aluminum stile glass doors
> Heavy-duty deadlatching mechanism
> Backsets 31/32", 1-1/8" & 1-1/2"
> Standard Hex key dogging

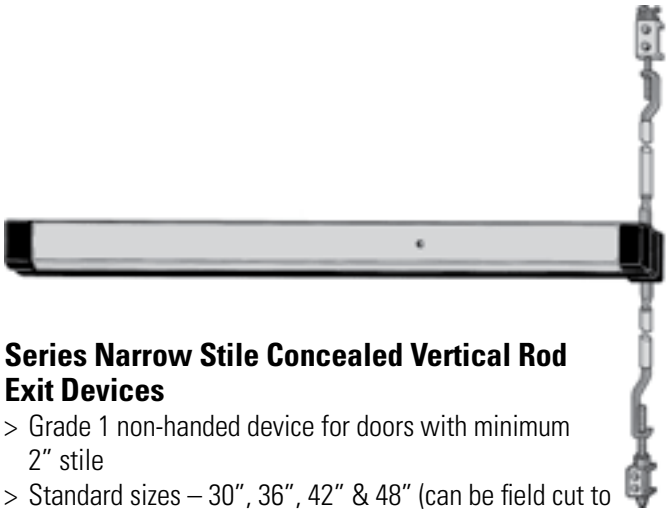

AD-8400.....$720.00

Series Narrow Stile Surface Vertical Rod Exit Devices

> Grade 1 non-handed device for aluminum doors with minimum 2" stile
> Available finishes: 313, 335, 628, US3, US4, US9, US10, 10B, US32, US32D
> Available trim designs: (see trim descriptions on next page) 01, 02, 03, 08, 09, 11, 12, 14
> Standard sizes – 30", 36", 42" & 48" (can be field cut to next smallest size)
> Patented interlocking top latch mechanism
> Fits door up to 8' – Adjustable steel rods
> Standard dogging with Hex key

AD-8200 .....$1000.00

Series Narrow Stile Concealed Vertical Rod Exit Devices

> Grade 1 non-handed device for doors with minimum 2" stile
> Standard sizes – 30", 36", 42" & 48" (can be field cut to next smallest size)
> Available finishes: 313, 335, 628, US3, US4, US9, US10, 10B, US32, US32D
> Available trim designs: (see trim descriptions on next page) 01, 02, 03, 08, 09, 11, 12, 14
> Standard unit adjustable for doors up to 66" in height
> Patented interlocking top latch mechanism
> Standard dogging with Hex key

AD-8600 .....$706.70

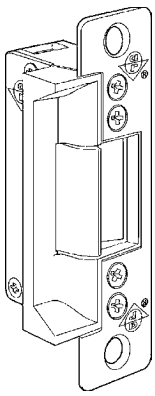

Series Surface Mounted Rim Exit Devices

> Grade 1 non-handed device for wood & hollow metal doors with minimum 3-3/4" stile
> Standard sizes – 30", 36", 42" & 48" (can be field cut to next smallest size)
> Available finishes: 313, 335, 628, US3, US4, US9, US10, 10B, US32, US32D
> Available trim designs: (see trim descriptions on next page) 01, 02, 03, 08, 09, 11, 12, 14

Panic Exit Alarm Device
Deadbolt and deadlatch. Free retrofit cover plates conceal mounting holes from models 11A or 230. 95db dual tone siren. Selectable 2-minute alarm or constant alarm. 9-volt battery powered. Requires standard rim cylinder (not included)

AA-250 .....$444.00

Panic Exit Alarm Device
U.L. Listed Panic Alarm deadbolt device which restricts unauthorized use of exit doors by sounding an alarm, while providing instant egress in emergencies. 9-volt battery. 95db dual piezo alarm. Low battery alert. Inside/outside cylinder capability. Non-handed. Requires standard rim cylinder (not included)

AA-700..... $546.00

Pilfergard Exit Alarm
Designed to deter the use of the secured door by sounding a twin action alarm when opened by unauthorized personnel. Can be bypassed from inside or outside by the use of a key (requires standard mortise cylinder, not supplied).

AA-PG10.....$276.00

Electric Deadbolts
Compact electric lock that is simple to install on all types of doors. The door is locked or unlocked by remote switch, key switch, time programmer or other electrical contact which interrupts the power. Standard "fail-safe". 24VAC or 12VAC models available.

AA-103 .....$342.00

Armored Door Loop
For use with electric locks. Easy way to bring current from hinge side of the door frame to the door. 18" flexible armored cable.

AA-271.....$56.00

Exterior Keypad for AA-PG30
Low-profile, with a brushed aluminum finish, accessory for the AA-PG30 provides all functions of the AAPG30 from the outside of the door.

AA-PG30K
PD..$198.00

Door Alarm
Keypad-controlled Narrow Stile door alarm. Digital codes for Master, Management and Passage. 3-security levels. Audible low battery warning. 3 programmable 95db siren styles.

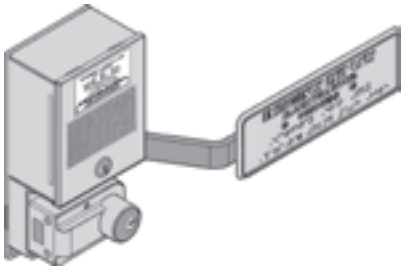

AA-PG30.....$324.00

Panic Exit Alarm Device
Model AA-11 is an exit lock designed to control unauthorized use of emergency doors. Standard features include a 1-inch throw deadbolt, warning alarm, outside cylinder capability, tamper switch and long life battery pack.

Requires standard rim cylinder (not included)

AA-11A-LHR....$564.00

AA-11A-RHR....$564.00

Replacement Battery Pack

AA-BP6.....$37.80

Double Door Strike for AA-11

AA-K28.....$46.20

Door Alarm
Key-activated door alarm for use on standard size and Narrow Stile doors. Unauthorized use of door will cause alarm to sound and will active the LED indicator. User selectable options include: continuous alarm, 2-minute shutdown with auto reset and exit/entry delay. Uses standard mortise cylinder (not included). Exterior key control with optional rim cylinder.

AA-PG21 .....$300.00

AA-ALP-12V3A..... $159.00

Outdoor Sealed Environment Keypad

The A-100WP is a self-contained keypad designed for the harshest outdoor environments. It provides single door access control for residential and commercial environments. Its heavy stainless enclosure and metal keypad buttons also make it extremely vandal resistant.

> Self-contained
> Sealed electronics package for outdoor requirements
> Metal keypad buttons with Braille markings
> Vandal resistant
> 150 user codes available
> 3 to 6 digit user codes
> Keypad programmable
> Non-volatile EEPROM memory
> Selectable audible keypad feedback

Operates up to three outputs (2 relays & 1 open-collector) and can be used to trigger a door strike, Electro-Magnetic Locks, or any other relay-activated device.

AA-A-100WP.....$450.30

Indoor Stainless Steel Keypad

The A-100 is a self-contained keypad designed for indoor applications. It provides single door access control for residential and commercial environments. Its heavy stainless steel faceplate is designed to mount on a standard single-gang electrical box.

> Stainless steel faceplate
> Mounts on a singlegang box
> 150 user codes available
> 3 to 6 digit user codes
> Keypad programmable
> Non-volatile EEPROM memory
> Selectable audible keypad feedback

Operates up to three outputs (2 relays & 1 open-collector) and can be used to trigger a door strike, Electro-Magnetic Locks, or any other relay-activated device.

AA-A-100.....$142.50

Outdoor Illuminated Mullion Keypad

The A-100IMWP is a self-contained access control keypad designed for outdoor applications. Its heavy stainless mullion-style surface mount enclosure is designed to be used in Narrow Stile applications.

> Self-contained
> Mullion-style surface mount enclosure
> Narrow Stile application
> Illuminated keypad
> Waterproof
> 150 user codes available
> 3 to 6 digit user codes
> Keypad programmable
> Non-volatile EEPROM memory
> Selectable audible keypad feedback

Operates up to three outputs (2 relays & 1 open-collector) and can be used to trigger a door strike, Electro-Magnetic Locks, or any other relay-activated device.

AA-A-100IMWP.....$399.00

NEW TRILOGY® Exit Device Control

Add Trilogy® convenience and audit trail to panic Exit Devices from most major manufacturers. Available Digital Only or Digital with Prox

> Fingertip and/or Windows Programmable
> 2000 User Codes
> Rugged 12-Button Metal Keypad
> Weather-Resistant
> Supports 6 or 7-pin IC Rim Cylinders

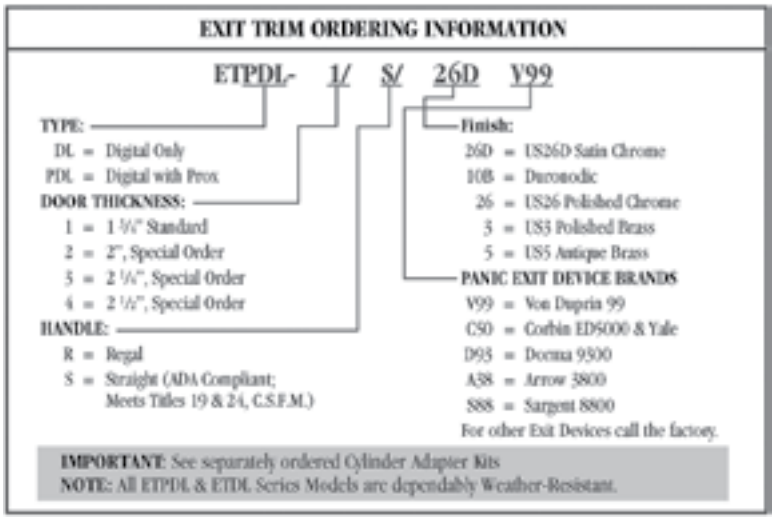

Panic Exit Device NOT Included

> Compatible with:
> Von Duprin 99
> Sargent 8800
> Yale 7100
> Corbin/Russwin ED5000
> Dorma 9300
> Arrow 3800

Combi-Cam™
The Combi-Cam is a secure solid die-cast zinc cam lock with 1,000 possible combinations. Does not require expensive kits to replace current cam lock. Replaces any standard 3/4" keyed cam lock.

Changing the combination is simple. With the lock set on the opening combination, push in the reset button while setting the new combination.

Package includes 90° stop cam, 1/2" and 1-1/2" straight cams, washer for wood applications, cylinder nut and screw with lock washer.

FM-7850S.....5/8" length to fit 3/8" thick material $19.95

FM-7850M .....7/8" length to fit 5/8" thick material $19.95

FM-7850L.....1-1/8" length to fit 7/8" thick material $19.95

Finger Pull
Fits behind head of the lock and converts lock into door/drawer handle.

FM-TM7850-FP.....$3.00

To change the combination, set the lock on the opening combination, push in the reset button on the bottom of the lock and set the new combination while holding in the reset button.

Combi-Bolt
The Combi-Bolt offers the convenience of keyless security with 10,000 possible codes and no need to hassle with keys! The solid, beefy, all metal sliding bolt (3/8" diameter) provides the convenience of one locking device and is more secure than hasp-and-padlock designs which leave the shackle exposed. Pick resistant dials, solid steel sliding bolt and one-way security screws deliver an extra level of protection.

FM-CB2000..... $26.70

escutcheon plates.

ML2000 Series Mortise Locks

> Field reversible handing

> Fits 1 ¾" doors

> 2 ¾" backset

> ANSI A156.13 Series

> Grade 1

> Thru-bolted trim

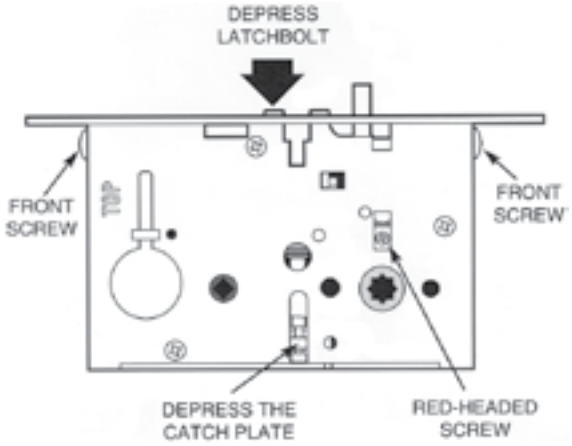

Patented Quick Reversible feature enables reversal of hands without disassembling the lock case.

ML2000HS (High Security) lock features vandal-resistant stainless steel escutcheon with tapered edges and Torx® pin tamper resistant screws.

Can be used with new or existing Corbin Russwin keysystems including Pyramid cylinders.

Through-bolted trim designs for proper alignment and increased security.

5-Year Warranty

Instructions for reversing the hand of the ML2000

1. Remove the armored front.
2. Remove the lockset from the door.
3. Fully depress the latchbolt and hold in the depressed position.
4. With mimimal force, depress the catch plate, located at the end of the latchtail, through the oblong cutout in the lockcase cap. While depressing the catch plate, release the latchbolt and remove latch from the lock.
5. Turn the latchbolt over and reinstall into the lock.
6. Depress the latchbolt until it re-engages the tail socket.
7. Remove the red headed screw from the stopworks and place it in the stopworks on the opposite side of the case.
8. Loosen the front screw to change the bevel. Tighten the front screws.
9. Reinstall the lock and armored front into the door.
10. If changing bevel only, i.e. RH to RHR, do only steps 1 through 6.

High Security Mortise Locks

> High Security SST Trim

> Knob: Cast stainless steel

> Escutcheon: Cast stainless steel

> Optional: Blank inside escutcheon

This is the only trim that is
available on the ML2000HS.

Trim design is not available
on standard ML2000 lockset.

Function ML2010
Passage or Closet

Latchbolt by grip either side. Both grips always free.

Function ML2022
Store Door

Latchbolt by grip either side. Deadbolt by key either side.

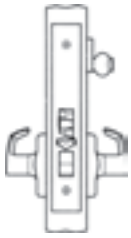

Function ML2030
Privacy/Bedroom/Bathroom

Latchbolt by grip either side. Deadbolt by thumbturn lever inside or by emergency release tool outside. Inside grip simultaneously retracts latchbolt and deadbolt.

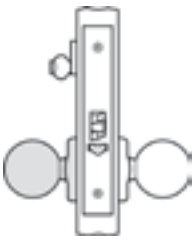

Function ML2048
Entrance or Apartment

Latchbolt by key outside or by grip either side, unless outside grip is locked by toggle-action stop. Deadbolt by key outside or by thumbturn lever inside. Inside grip always free.

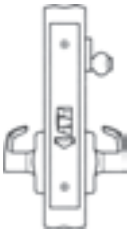

Function ML2051
Entrance or Office

Latchbolt by key outside or by grip either side, unless outside grip is locked by toggle-action stop. Auxiliary latch deadlocks latchbolt. Inside grip always free.

Function ML2057
Storeroom or Closet

Latchbolt by grip inside or by key outside. Outside grip always rigid. Auxiliary latch deadlocks latchbolt. Inside grip always free.

Function ML2055
Classroom

Latchbolt by grip either side. Both grips always free.

Function ML2067
Apartment or Domitory

Latchbolt by grip either side, unless outside grip is locked by toggle-action stop or by projection of deadbolt. Deadbolt by key outside or by thumbturn lever inside. Inside grip simultaneously retracts latchbolt and deadbolt; outside grip remains locked. Auxiliary latch deadlocks latchbolt.

Peerless® Handcuff Company

The Peerless® chain link handcuff has a new design. The Model 700 now incorporates spun rivet construction for increased strength and durability. Smooth single strand action allow for fast and efficient cuffing. The profiled edges minimize the risk of tissue and nerve injury. The Model 700 has been approved by the National Institute of Justice. It comes with a lifetime warranty for manufacture defects.

Two keys supplied.

Material: Carbon Steel
Minimum opening: 2.0"
Minimum inside perimeter: 5.9"
Maximum inside perimeter: 8.3"
Maximum overall length: 9.3"

Series 1990 Exploded View

DOR-O-Matic SC Series closers feature two separate hydraulic valves to control the closing motion of the door. The closing force can be increased by 15% using the power adjustment feature of the regular arm shoe. The operating swing of the door is controlled with a separate adjustable backcheck function. Complete, ready to mount in the installer's choice of hinge side, top jamb or parallel arm configuration on either right or left-hand swinging doors. Provided with fasteners for wood, hollow metal and aluminum doors and frames.

DO-SC61 Door Closers

Suitable for interior doors up to 48" wide and can be adjusted to the ADA accessibility requirements. Mounting holes are 9-1/16" on center and uses the same footprint as the Norton 1601 closer.

DO-SC61-AL..... $178.00

DO-SC61-DKB $178.00

Framon Detention Code Key Machines
All the features and benefits of the Framon #2 and adds everything you need to cut Folger Adam, Mogul, Southern Steel and Adtec keys. A special vise is included with the machine to clamp the larger keys. An extension is added to the spacing crank to avoid interference with the head of larger keys.

FR-2J $7,190.00

Framon Manual Code Key Machines
The #2 is recognized throughout the industry as the most accurate and durable code machine available. Originate almost any cylinder key in use today.
> Standard cylinder
> Domestic Automotive
> Foreign Automotive
> Motorcycle Keys
> Padlock Keys
> Letterbox Keys
> Safety Deposit Box Keys
> Interchangeable Core Keys
> High Security Keys
> Tibbe 6 & 8 Wafer Keys (with optional vise)

FR-2 .....$4,590.00

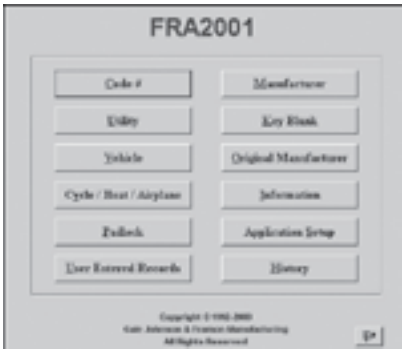

Framon Detention Code Key Machines
The KX-1 is designed to quickly and accurately code cut High Security detention keys. The machine is capable of cutting keys accurate to .0005" in about fifteen seconds.

Model KX-1-FA is dedicated to cut Folger Adam Paracentric and Mogul Keys.

Model KX-1-SS is dedicated to cut Southern Steel Paracentric and Mogul Keys.

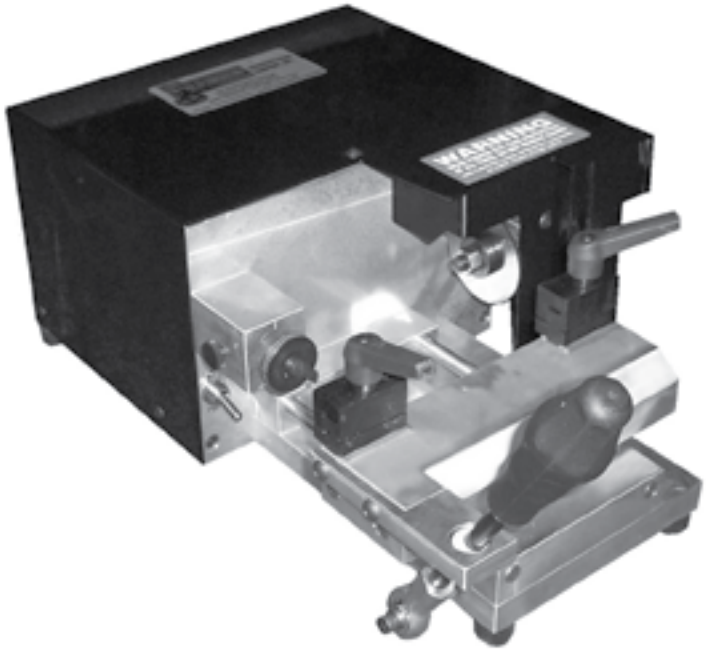

FR-KX-1-FA..... $7,398.00

Genericode™ The Total Code Retrieval System
General Code Program - Windows™ Compatible Utility. Vehicle, Motorcycle and Padlock Programs. Key Blank Search. Depth and Spacing - Progression

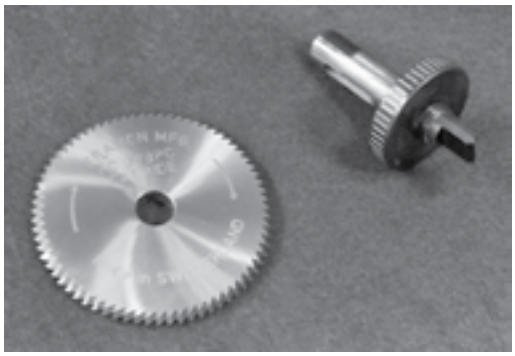

Locksmith Ledger Index since 1985

Genericode™ FR-CD.....$1,390.00

Framon Detention Duplicating Key Machines
The FR-JD12 incorporates cnc-grade linear ball bearings on both the X & Y axis, as well as hardened rods. This gives the machine an extremely smooth motion & allows precise user control. A control lever is mounted on the left side of the machine to control carriage movement.

FR-JD12 .....$2,806.00

Mogul Kits
Changing the machine over from Paracentric to Mogul takes approximately one minute. Preset to cut paracentric keys.

FR-JD12MK.....$971.52

See IVES on page 98 for balance of product line

90 Series Surface Overhead Door Holders

Glynn-Johnson 90 series holders and stops are the most rugged models available for heavy-duty applications. The channel is surfacemounted to the door, most often with sex bolts, and the jamb bracket is surface mounted to the jamb, requiring minimal door and frame preparation. Can be used in conjunction with most surface-applied door closers. The provided templated allow for variable mounting positions, ranging from 85° to 110° Hold-Open/Stop angle. Designed for installation in almost all types of doors, including doors with conventional butt-type hinges or specialty hinges.

IV-90 .....$352.80

410 Series Concealed Overhead Door Holder/Stop

Glynn-Johnson 410 series Door Holders and stops offer effective door control and a low-profile design. Constructed so that the channel is encased in the door and the jamb bracket is mortised in the frame. When the door is open, the arm and jamb bracket are visible and concealed when the door is in the closed position. Can be used with most surface-applied door closers. The provided templates allow for variable mounting positions, ranging from 85° to 110° of opening. Designed for installation all most type doors, including doors with conventional butt-type hinges or specialty hinges.

Series 280 SENSAGUARD™ Door Holders Holder/Release Smoke Detector

Glynn-Johnson provides a holder/release detector designed to allow fire doors to remain open for easy passage, while releasing doors in an emergency. The SensaGuard™ Series 280 features an internal ionization-type smoke detector, powered by a single 9-volt battery. Its fail-safe operation automatically releases the door when battery power drops below 7.2 volts.

IV-280 .....$966.00

HL6 Push/Pull Hospital Latch

The sleek design has a short throw angle, allowing the door to be opened with an easy push or pull action, even when hands are not free. Designed for commercial and institutional doors up to 1-3/4", including fire doors.

IV-HL6-US26D-2.....2-3/4" backset.....$299.82

IV-HL6-US26D-5 .....5" backset.....$299.82

Push/Pull Hospital Latch Latch and Mortise Lock

The unit combines the features and convenience of the HL6 Push/Pull operation with the durability of the Schlage L-Series heavy-duty mortise lock. The sleek design has a short throw angle, allowing the door to be opened with an easy push or pull action, even when hands are not free. 2-3/4" backset.

Blue Plastic File Handles

Unbreakable plastic, with textured surface for a non-slip grip. Specially shaped to fit the hand for working comfort even over long periods. Hole at top permits convenient hang-up storage. Tage gripping insert is tempered metal, with two threaded sections of different diameters. This assures proper alignment and positive hold for files, and also allow handle to be reused. Simple unscrew the file in use and insert a new one.

GR-37.783 - File Size 3 - $5.70

GR-37.784 - File Size 4 - $6.00

Locksmith File Set

Includes 8 Files – Tweezers & Apron
Warding Files 32.468, 32.469, 32.473, 32.474
Round File 31.290, 31.292
Pippin Files 31.268, 31.269

GR-33.855.....$235.20

Pippin Files

Tapered in width and thickness. Combines the cross-sections of the round file, with the crossing file, along with the edge of a knife file. For finishing the junction of two different curved surfaces and for opening slots when a "V" shape is required. Double cut on both sides. Top and bottom edge are single cut.

Length	Cut 2	Price
6"	GR31.268	**$129.36**

Round Files

Gradually tapered and cut and workable to the point. Used where it is necessary to enlarge a hole round off a radius.

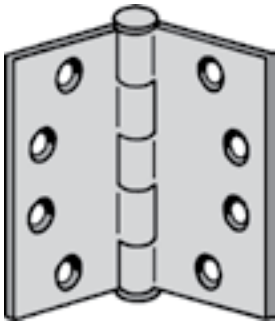

Length	Cut 2	Price
6"	GR31.292	**$50.56**

Warding Files – American Pattern

Parallel in thickness and tapered in width. Useful for removal of burs. Double cut top and bottom. Both edges are single cut.

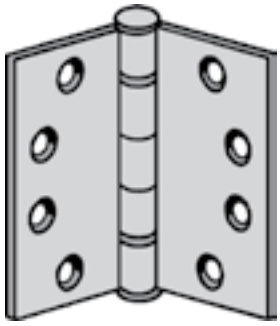

Length	Bastard	Price

5200 Series Electri
Grade 1 Adjustable Solution

Designed with the installer in mind, the 5200 series raises the standard in adaptability for electric strikes. Offering features such as an all new innovative approach to in-frame horizontal adjustability, the electric strike is the perfect fit for multiple applications. The field selectable fail secure/fail safe unit is easy to install and accommodates 3/4" latchbolts.

> Tamper resistant

> Non-handed

> Includes door position switch, latchbolt monitor, LED and buzzer

> Field selectable fail secure/fail safe

> Dual Voltage 12 or 24VAC/VDC

> Accommodates 5/8"-3/4" latchbolt (3/4" with 1/8" door gap)

HE-5200-501 ..... Body with face plate **$170.40**

Face Plate

For Cylindrical locksets in ANSI metal jambs

Includes door position switch, latchbolt monitor, LED and buzzer

RF5010-5210 Integrated Proximity Card Reader Electric Strikes

Sophisticated control with installation flexibility

The first-ever electric strike with an integrated proximity card reader. Combining the access control of an HID® Prox reader with the physical security of a Grade 1 electric strike, the RF5010-IA series encompasses everything in the frame for faster installation and superior aesthetics. Designed to work with any Weigand-compatible controller, the RF5010-IA is a single unit with an internal antenna, accommodating 5/8" latchbolts in outswing applications.

> All stainless steel construction

> Integrated HID Proximity Card reader

> Non-handed

HE-RF5010-IA ..... **5/8" Latchbolt** **$686.40**

HE-RF5210-IA ..... **3/4" Latchbolt** **$686.40**

5900 Series Electric Strikes

The first-ever integrated electric strike completely concealed within the door frame. Combining Grade 1 strength, superior aesthetics, sophisticated access control, and vertical adjustability for faster installation and maximum flexibility.

> No cutting on frame required
> Tamper resistant
> Non-handed
> Internally mounted solenoid
> Plug-in connectors

HE-5900-591 .... Body with face plate **....$235.20**

7000 Series Pre-Load Solution Electric Strikes

The 7000 series has a modular design to accommodate both cylindrical and rim exit locksets. The 7000 series will accommodate various types of latchbolts from 5/8" to 3/4" throw. The unique design of the keeper module allows the unit to operate under excessive door loading. The 7000 series has an internally mounted solenoid for ease of installation in metal, aluminum and wood jambs. The heavy-duty construction of the 7000 series electric strikes makes them ideal for high usage applications.

> Stainless steel construction
> Non-handed
> Internally mounted solenoid
> Strike body depth 1-11/16"
> Plug-in connector

9500 Genesis Surface Mounted Series Fire-Rated Electric Strikes

The 9500 series Genesis™ is completely surface mounted, featuring all components completely encased within its 3/4" thick stainless steel housing-requiring no cuts to the jamb. Designed for use with 3/4" exit devices, the Genesis series is field selectable to either fail secure or fail safe operation and can be operated with either 12 or 24 Volts DC.

> Completely surface mounted

> Stainless steel construction

> Tamper resistant

> Non-handed

> Internally mounted solenoid

HE-9500.....$626.40

Smart Pack II

In-line power controller. The SMART-Pac™ enables each electric strike to handle a voltage range of 12 to 32, AC or AD. Additionally, this small device has been designed with many other features, including a M.O.V. to protect the host system, an in-line fuse to protect the strike and an adjustable minimum activation timer. This enhances the capabilities of the electric strike by allowing it to be ordered in only one voltage, either fail secure or fail safe

HE-2005 .....$90.00

9600 Genesis Surface Mounted Electric Strikes

Totally surface mounted, requires absolutely no cutting of the door frame. The unit's, 9" x 1-3/4" x 3/4" face plate encases all electro-mechanical components making it very easy to install. A patent pending, dual locking mechanism provides the holding force of two electric strikes in one. Accommodates Rim Mounted Panic Exit Devices and can be installed on metal, wood, or aluminum jambs.

> All stainless steel construction

> Internally mounted solenoid

> Horizontal adjustment

> Non-handed

> Plug-in connectors

HE-9600.....$559.20

Spacer Plate

Spacer plate installs between the electric strike and door frame to raise electric strike an additional 1/8".

> Fits 9600

HE-9600-108-630.....$30.00

Hinge Doctor Door Sag Tool

This tool is designed to adjust worn or improperly adjusted 4-1/2" x 4-1/2" butt hinges that cause the door to sag. All you do to fix it is slip the tool over the door hinge, hold it in place with one hand, while you open the door with the other hand. This action causes the door hinge to bind while the tool is in place. Open the door only an inch or two past the point where it binds against the tool then remove the tool from the hinge, check the door

GK-HA1 - Standard Hinges.....$90.00

GK-HA3 - Ball Bearing Hinges...$99.90

Hinge Doctor Door Sag Tool

Hinge Doctor for larger commercial hinges used in jails and other institutional settings.

GK-HA4 ..... $179.90

Mega Screwdriver

A 24" screwdriver / impact driver for removing & installing door hinges, door strikes and door closers on metal doors & frames. The non-slip handle grip, impact slider & 24" length will break loose any stubborn hinge screw. The quick change chuck allows the use of any standard quick change bit.

GK-MS1 ..... $210.00

Hinge Doctor Door Sag Tool

New residential Hinge Doctor HA2 double sided tool to adjust residential hinges one knuckle at a time.

GK-HA2 ..... $139.90

Special Hinge Screws

Self-drilling, self-taping #14 screws with #12 head to replace #12 stripped out hinge, strike plate and door closer screws in steel frames.

GK-HSP50 50 per pack $50.00

GK-HSP100M 100 per pack $100.00

THE BLITZ™ Code Machine

Upgraded version of the HP-1200CM. Works exactly the same as the 1200CM but has several added features. Both the depth and spacing shafts have fewer threads per inch, which means that less revolutions are needed to achieve full range of travel. The new flip gauge is more visible. The Blitz™ is equipped with a deburring brush.

HP-1200CMB $4,712.00

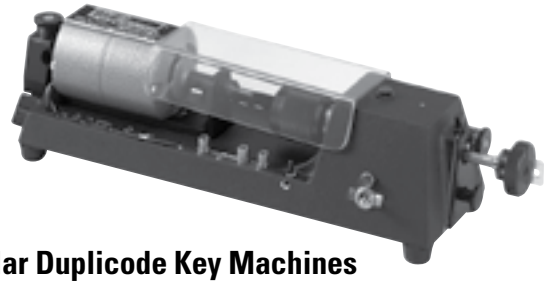

HP-CM1054R – Horseshoe tip stop $23.78

HP-CM1083MA – Replacement belt $38.46

Medeco Jaw for 1200

CM – HP-MJ1 .....$136.04

Tubular Duplicode Key Machines

Multi-Functional Tubular Code Machine & Duplicator

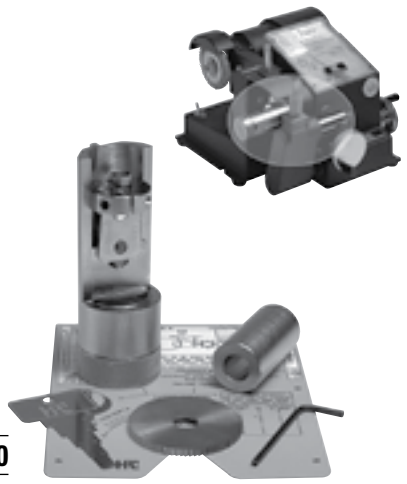

Lightweight tubular key machine designed to cut all sizes of tubular keys, including dead pin cuts, right and left hand cuts, 8-cut, 10-cut, 11-cut and double cuts in any position. Can also duplicate a key from an HPC pick. Can duplicate any key, even if it has non-standard depth increments. Has a positive decoding mechanism allowing you to cut by code.

HP-747XU $2,500.00

Tubular Key Adapter Kit

Turns the Blitz into a tubular code machine. Factory preset to cut standard 7-pin tubular keys by code. Fits in the Blitz/1200CM standard "A" Jaw. Includes Adapter, Carbide Slotter Cutter, a Tubular Key Code Card and an Allen wrench.

HP-TKA-CMB $515.00

CodeMax™ Key Machines

CodeMax™ is a computerized code machine based on the 1200CMB machine. Contains an internal computer chip that has over 600 different depth and spacing charts. It can cut keys with up to 14 spaces and up to 14 depths. Comes with a copy of HPC's CodeSource™ with over 2 million codes. With optional equipment CodeMax™ can cut: Assa V10/Twin®, Emhart Interlocking Pin®, Medeco Biaxial®/Commercial® & KeyMark®, Schlage Primus® and other specialty keys.

HP-1200Max $9,190.00

Econdo Tubular Duplicode Key Machines

Economy Tubular Key Duplicator

No frills tubular key machine. Duplicates standard 7-pin tubular keys in any position or depth. Also duplicates a key from an HPC pick with the feelers in the picked position.

HP-747E $1,290.00

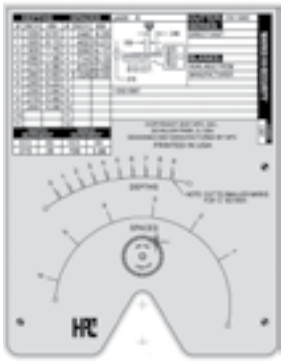

Mini Speedex® Key Machines

Lightweight Key Duplicator

The Mini Speedex® is one of the most accurate small key machines on the market. The 9120RM has 4-way jaws which allow it to cut a wide variety of keys. This lightweight duplicator is able to cut regular or large-bow keys. It also come equipped with the HPC Softie™ rotary brush. The durable construction and bronze bearings combine for a longer lasting product. Its portable size and weight make the 9120RM convenient to use almost anywhere.

HP-9120RM $740.00

Single Cylinder Jimmy Proof
Bronze lacquered finish. Operates by key outside or turn knob inside. 10 per case.

IN-530CP(CARDED) $19.13

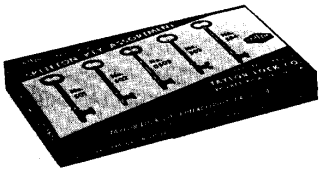

IN-530..... $17.20

Double Cylinder Jimmy Proof
Bronze lacquered finish. Operates by key from both sides. 10 per case.

IN-535CP(CARDED) $22.87

IN-535..... $21.00

Skeleton Key Assortment
35 total keys – 5 different

IN-2SKA.....$142.40

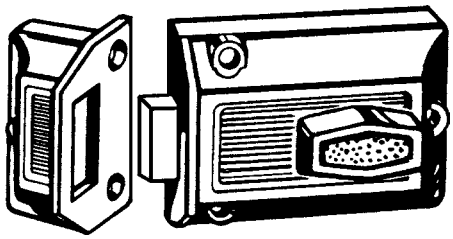

Die Cast Rim Cylinders
CP=Clear Pack
(Specify KA or KD)

IN-605KW.....$5.73

IN-605KWCP..$6.13

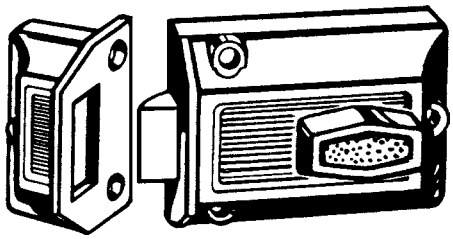

Rim Latch Deadlock
Replaces most Night Latches with no additional drilling or mortising. Operates by key outside and turn knob inside. 10 per case.

IN-545CP(carded).....$14.53

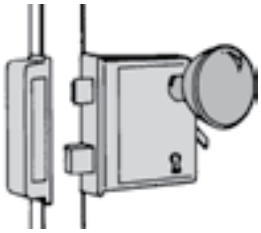

IN-545.....$12.00

Night Latches
Economical Night Latch operates by key outside and turn knob inside. Bolt may be held back by turn knob.
10 per case.

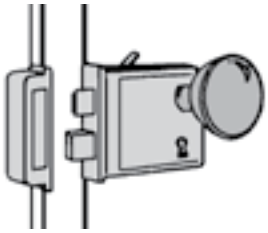

IN-220CP(carded).....$14.53

IN-220.....$12.00

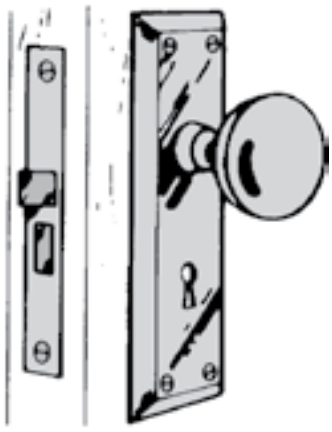

Vertical Bit Key Rim Lock

IN-590.....$24.87

Horizontal Bit Key Rim Lock

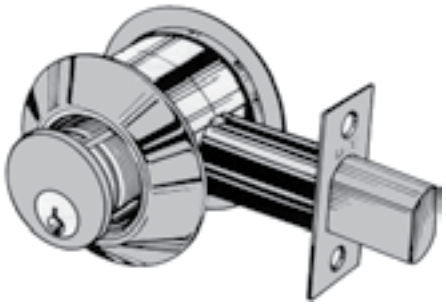

IN-591.....$24.87

Bit Mortise Locksets
A universal replacement lock. Includes two knobs, threaded spindle, lock body and two trim plates. 5 per case.

IN-215.....$24.87

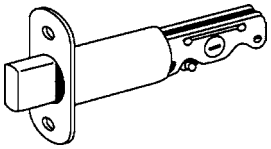

4500 Series Cylindrical Deadbolts

Accepts any standard 1" or 1-1/8" mortise cylinder with an AR cam (cylinders not included).

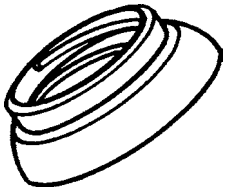

10 per case.

Unique ID Each ring has its own unique serial number. This string of numbers and letters enables audits on both the rings and their keys. The permanent ID prevents someone from removing or substituting keys without detection.

Tamper Proof Key Rings

Replaces welded rings to prevent removal of keys. If ring is forced open, seal is destroyed showing ring has been tampered with.

Solid or Flexible Tamper-Proof Key Rings™ available in solid and flexible (braided) versions.

Packs of 10

KS-279....1" Ring.....$62.30

KS-278....1-5/8" Ring.....$66.50

4040 Series Parts

Specify finish:

A – aluminum
D – dark bronze

LC-4040-3077.....Standard Arm $142.67

LC-4040-3049.....Hold-Open Arm $198.67

LC-4040-18TJ .....Top Jamb Bracket $61.34

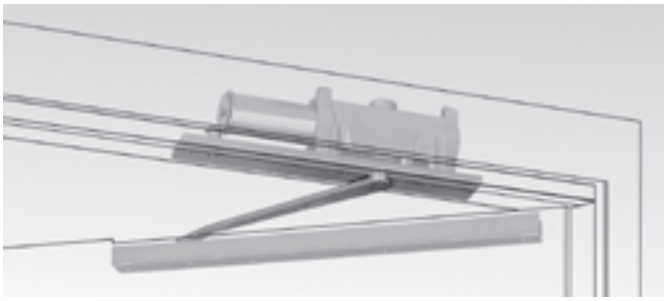

LC-4040-18PA.....Drop Plate $61.33

4040SE Sentronic© Series Door Closers

The 4040SE Sentronic is a heavy duty, non-handed, non-sized closer/holder designed to provide single point hold-open for fire and smoke barrier doors. The door is held open until current interruption releases the holding mechanism and the door closes. Single lever (track) arm closer is specifically designed for interior doors.

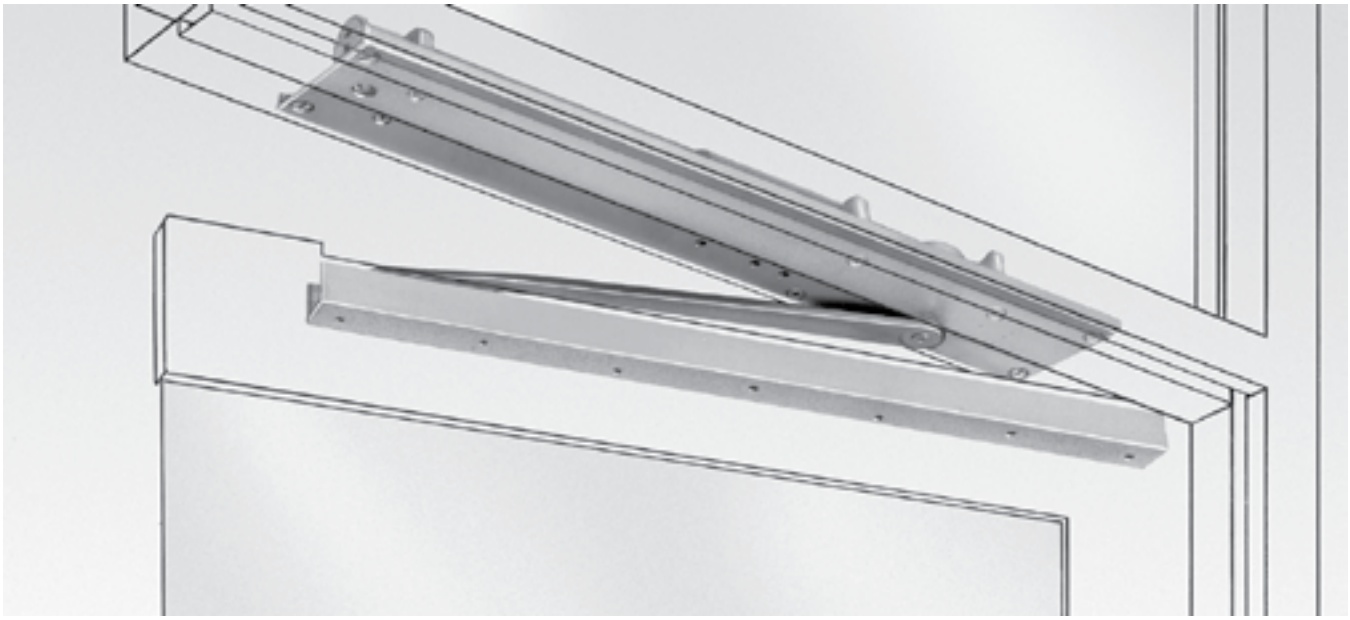

LC-4040SE.....$750.00

LCN 2010 Series Concealed Door Closers

The concealed 2010 Series is a heavy-duty closer designed to provide complete concealment. The single lever arm and roller assembly provide smooth, quiet door control and the choice of finish and track functions meet virtually all architectural requirements. Specify size 1, 3, 4, 5, or 6. Specify hand RH or LH.

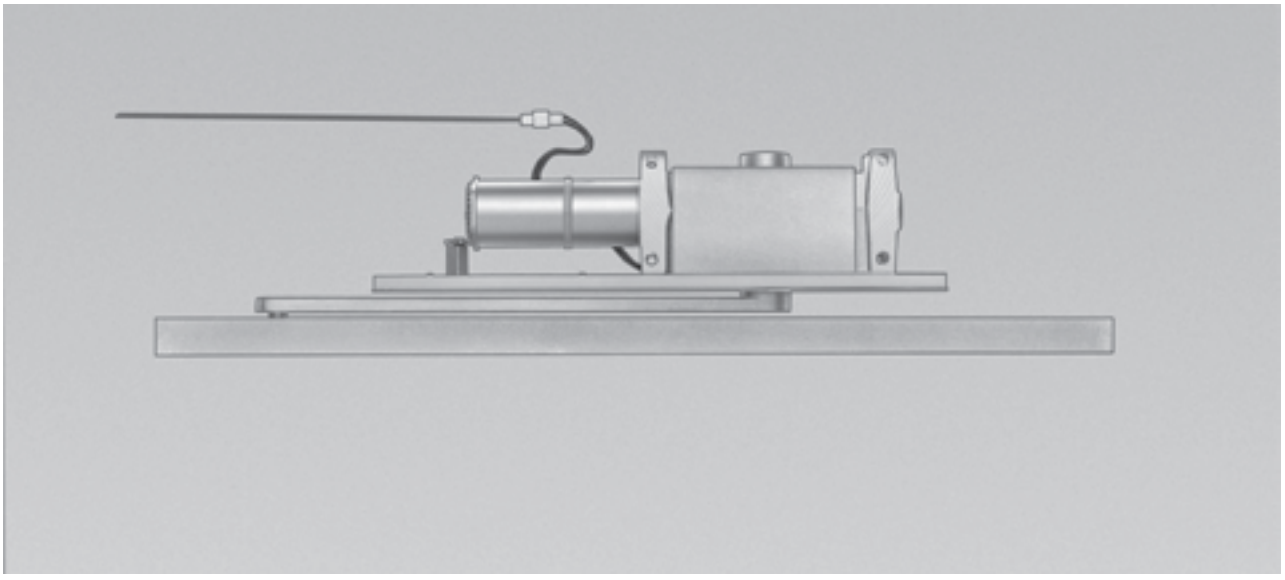

LC-2011.....$546.00

LCN 2030 Series Concealed Door Closers

The concealed 2030 Series PACER® is a heavy duty closer designed to fit in a narrow minimum 1-3/4" aluminum transom. The single lever arm and rolloer assembly provide smooth, quiet door control and the choice of finish and track functions meet virtually all architectural requirements.

LC-2030 .....$904.80

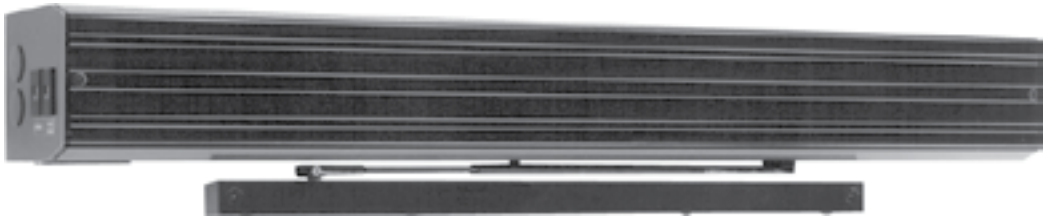

LCN 2210 High Security Track Series Concealed Door Closers

The concealed 2210 Series heavy duty, high security track closer features complete concealment with special components to minimize tampering and vandalism. Forged steel, single lever arm and heavy steel mounting plate are designed for correctional, vandal prone, institutional, and other high traffic applications.

LC-2211 .....$757.20

LC-2211DPS.....$850.80

LCN 4640 Auto-Equalizer™ Power Operator Door Openers

The 4060 Auto-Equalizer is LCN's electrically powered low-energy power operator. It provides easy access for people with disabilities, the elderly, or the frail. Designed primarily for manual opening applications that occaisionally require automatic opening.

LC-4640 .....$5,314.80

932 Handheld Wireless Actuator

Wireless actuation system consists of a short-range radio transmitter and a matching receiver. Powered by a 9V battery which only requires annual replacement under normal usage.

LC-932 .....$283.00

931 RF Receiver

For use with LC-932 actuator. Locate actuator and receiver so maximum line-of-site distance does not exceed 50' for best performance.

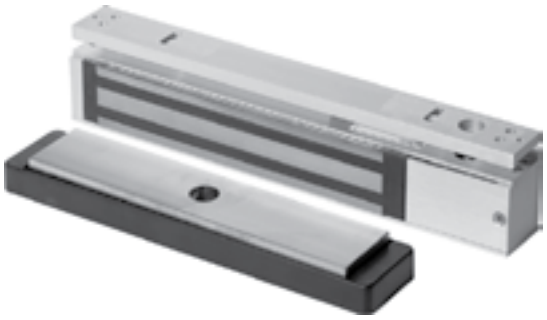

LC-931 .....$344.00

952 Wall Plate Actuator

Hardwired low voltage actuator with 6" round, stainless steel touch plate. Engraved blue filled handicap symbol conforms to most accessibility codes. Designed to mount in 7910 series flush or surface mounting boxes (ordered separately) in/on a vertical surface near the controlled door. Heavy industrial grade components provide vandal resistant mounting and weather resistant switch standard.

LC-7910-952.....$513.60

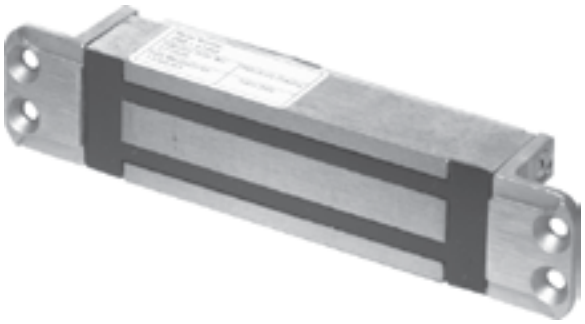

MagForce™ High Security Electro Magnet
> Surface mounted electromagnet

> Auto voltage selection 12/24VDC

> 1650 lbs. holding force

LN-390+.....$632.40

Electro-Magnetic Shear Lock
> Mortise mounted

> Universal armature

> Compact coil size

> Holding force to 2700 lbs.

LN-280.....$1,437.60

SmartBar™
The 690-Series SmartBar™ is a non-latching electric releasing device with no moving parts that permits egress at doors equipped with electric locks or magnets. Touching any point along the SmartBar™ triggers a capacitive sensor and/or an infrared beam across the front of the bar to release an electric lock. This SPDT switch has both normally open and normally closed contact to provide control of a wide variety of electric circuit devices.

LN-692.....$549.60

Mortise Mounted Right Angle Electric Deadbolts
Narrow design for concealed mortise mounting in 1-3/4" hollow metal or aluminum frames or doors. 3/4" diameter stainless steel bolt pin with a 3/4" throw.

LN-405.....$584.40

Exit Button
> 2-3/4" Mushroom Button

COBRA Series Manually Programmable Locks

Cobra by Schlage is an architecturally designed programmable locking solution. This attractive, battery powered electronic lock is ideal for new construction or retrofit applications where aesthetics are important and program flexibility at the lock is critical.

With Cobra's programming flexibility, users can program up to one hundred 3 to 8 degit user codes right at the keypad. In addition, the lock features red and green LED indicators for visible access and programming acknowledgement. A concealed emergency override gives you additional flexibility to tie into existing SFIC (small format interchangeable core) keying systems.

Additional features include extended battery life, Vandlgard® clutching lever design, a variety of architectural finishes and two lever designs.

Programmable cylindrical lockset with ½" cylindrical latchbolt

LN-MPC.....$699.60

Programmable mortise lockset with ¾" latchbolt

LN-MPM.....$848.40

> 2-3 year battery life

> Stainless Buttons

> Exterior Gasket

> Fits Most Doors

> Cylindrical or Mortise Lockset

King COBRA Manually Programmable Access Control System

The Schlage King Cobra is an architecturally designed, manually programmable electronic access control lock. It is the next step towards migrating up the security pyramid from a Level 1 patented mechanical key foundation to Level 2 electronic access control. A descendent of the original Schlage Cobra, the King Cobra Series is smarter with an expanded scope of door and latch applications. Feature enhancements include a 12-button keypad, iButton credential reader, and a Schlage Everest Cylinder.

The Schlage King Cobra is a perfect security upgrade where mechanical keys are still being distributed to employees, or where mechanical pushbutton locks with single, shared, code combinations are relied on to secure an opening.

120 individual users codes + credentials. 3-year battery life. Vandlgard® clutching mechanism.

Available for cylindrical or mortise latchbolts.

Manually programmable cylinder lock

LN-KC5196.....$1,039.20

Manually programmable mortise lockset

LN-KC5596..... $1,186.80

A FREE iButton is included with each lock!

> The King Cobra offers the unique benefit of an iButton credential in addition to a keypad for gaining access.

> The iButton credential elevates security by requiring a user to present a credential device and a code to gain access

Computer Managed CM5500 Mortise Series Locking Systems

CM locks from Schlage are computer managed, stand alone locking systems that are designed for robust, flexible access control in both retrofit and new construction installations. CM stand alone locks provide many of the features of an online access control system, but without the heavy investment associated with networked systems.

These unique locks are operator and user friendly and are available with a variety of credential reader types – magnetic stripe card, HID proximity, iButton and PIN codes. CM locks will also work with existing magnetic stripe cards and HID proximity credentials already in place.

Powered by 4 standard "AA" batteries. The Batteries on average, provide greater than 2-years of battery life.

Product No.	Type	Description	Price
LN-CM5500-KPI	Mortise Lock	iButton/Keypad	**$1,597.20**
LN-CM5500-MGI	MortiseLock	MagCard Reader/iButton	**$1,611.60**
LN-CM5500-PXK	MortiseLock	ProxReader/iButton/Keypad	**$2,025.60**

Computer Managed CM5100 Cylindrical Series Locking Systems

CM locks from Schlage are computer managed, stand alone locking systems that are designed for robust, flexible access control in both retrofit and new construction installations. CM stand alone locks provide many of the features of an online access control system, but without the heavy investment associated with networked systems.

These unique locks are operator and user friendly and are available with a variety of credential reader types – magnetic stripe card, HID proximity, iButton and PIN codes. CM locks will also work with existing magnetic stripe cards and HID proximity credentials already in place.

CM993 Series Exit Trim for Von Duprin Exit Devices

PRO993 trim from Von Duprin is a keypad programmable, stand alone solution that provides access control capability to openings equipped with a Von Duprin 98/99 series exit device for egress. The trim provides basic access control for both retrofit and new construction installations.

This unique trim eliminates the need to provide keys to authorized personnel for entry. It also eliminates high rekeying costs associated with lost, stolen or nonreturned keys. The PRO993 allows manual programming of up to 120 individual 3 to 8 digit access codes. Adding and deleting codes can be done at the keypad with seconds.

Powered by 4 standard "AA" batteries that provide greater than 2 years of battery life on average..

Product No.	Description	Price

Rim and Mortise Cylinders

Medeco recommends patented, UL436 Listed, Medeco^3 cylinder technology for rim and mortise cylinders. Pricing and part numbering information follows which applies to Original, Medeco^3, Biaxial, and KeyMark cylinders. "Original" cylinder technology was used in systems until patent expiration 1986. KeyMark cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attacks.

Key Management Systems

KeyBank is a simple, efficient key management system designed to prevent lost or stolen keys. Electronically-monitored, color-coded and virtually tamper-proof Smart Keys are individually housed in a hi-tech, wall-mounted key storage cabinet. KeyBank instantly records the access history of each key and user. You will always know who has which key and when it was taken.

Individual lockers and slots accommodate valuables that require controlled access. Custom-sized vaults hold larger items such as prescriptions, small firearms, tools, wallets, wireless phones, videos and more. Thin slots are ideal for credit, debit, gas and key cards.

Tamper Proof Key Rings

Morse Watchman's Key-Rings is the simplest way to ensure peace of mind. Key-Rings is the "no tools needed," econimical choice for the demanding security professional. Uning only your hand, an easy close-and-lock system requires on the power of your hand to seal it shut. Key-Rings boast an exclusive tamperproof design which ensures keys cannot be removed. They're constructed from 5/32" of high quality, stainless steel. To prevent substitutions, the serialized hubs have unique identification numbers.

Item	Ring Size	Bag of 25
MW-KR-15-15	1-1/2" x 1-1/2"	**$45.00**

MW-KH-08	White	**$99.50**

Smart Keys
Keys are secured to a Smart Key locking mechanism and memory chip, which provide additional security and functionality for the key management systems. When a Smart Key is inserted into a key slot within a KeyWatcher or KeyBank cabinet, the memory chip data is stored and then retrieved after a key is properly accessed. Users can only access keys from the cabinets with a proper User Code, as designated by their security mangers.

Sargent T-Zone™

The Sargent T-Zone™ sets a higher standard for Grade 1 boredin locks. The unique, T-Zone construction provides unequalled strength and durability for the most demanding applications such as schools and hospitals. Direct linkage with fixed alignment between the hub and the latch bolt. Interlocking aligning and latch tubes, which form a rugged torque resistant "T" in the critical twist area.

> Exceeds ANSI/BHMA A156.2 Grade 1 requirements
> Solid cast levers
> 45° rotation to retract latch
> Eliminates lever sag
> Fits door 1-3/4" to 2" thick
> Crossbore – 2-1/8" (type 161cutout)
> 2-3/4" backset standard – available 3-3/4" & 5"
> Non-handed / field reversible
> Fit on stiles 4-1/4" and 4-1/2"
> Cast/machined stainless steel lock body
> Seven year limited warrant

4211/4212 Keypad Mortise Lock – KP10G77 Cylindrical Keypad Lock

The Sargent Keypad Mortise Locks is designed for areas which require authorized entry. It is a self-contained microprocessor controlled keypad with non-volatile solid-state memory. The non-volatile memory insures codes will not be lost even if the batteries stop functioning. The mortise lock is a battery (4AA) operated motor driven lock. The keypad mortise lock is totally programmable at the keypad for all functions. The unit can be programmed as a momentary unlocking device or unlocked and used as a passage unit. The inside lever of the mortise lock is always free for egress. A remote unlocking feature is available to provide unlocking from a remote location if required.

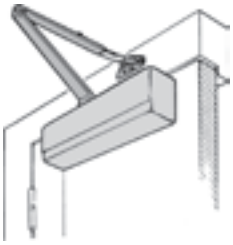

Available with any of the lever designs shown on the previous page. Not available with escutcheons or knobs. Designate either LN or L rose. Available in all standard finishes. Specify hand when ordering.

SA-KP8276LNL with cylinder $1,820.00

EVEREST™

High Security with Geographical Exclusivity for Dealers and End Users

Restricted Keyways for End Users and Dealers

Open Keyways and End User Restricted keyways

Standard Lockset Cylinder

Full Size Interchangeable Core Cylinders

SFIC - Small Format Interchangeable Cores

Everest® is the name of Schlage's new keyways with the patented undercut groove. The patent prevents others from manufacturing and distributing Everst key blanks. There are three different multiplex families of Everest keyways.

Family	Control	Type	Punchable
Everest B	Restricted	SFIC	Yes
Everest C	Open	Full Size	Yes
Everest D	Restricted	Full Size	No

Open keyways should be sold where fast and easy key duplication is required. For these keyways, the Everest patent is used to guarantee genuine Schlage quality keys to the end user and to limit key blank distribution; Everst open keyways are only sold to locksmiths and builders' hardware dealers. The end user is also more likely to have his Everest C Family duplicate key work perfectly the first time because professional locksmiths typically make higher quality keys. Restricted patented keyways are used where the end user wants to make a serious effort to eliminate unauthorized duplication of keys. Everest restricted keyway cylinders are more economical than Primus® cylinders but they do not offer the geographical exclusivity nor additional security of Everest Primus, which is Schlage's top-of-the-line cylinder.

Part No.	Cylinder Description	Price
SC30-21	Mortise cylinder with "L" cam – no collar	**$62.66**

SC23-013	"D" series lever cylinder	**$64.00**
SC23-030	Full size interchangeable core	**$64.00**
SC80-037	SFIC (small format interchangeable core, i.e. Best type)	**$64.00**

XMS Infrared Exit Motion Detector

The XMS has been specifically configured to reliably release magnetic locks. A person approaching the door is "seen" by the detector just before he reaches the door. The XMS automatically cuts power to the magnetic lock, allowing the individual to freely exit without even realizing that the door is secured. The unit will operate on any DC voltage between 12 and 28 volts.

SO-XMS.....$240.00

Prime Time 7-Day Digital Timer

The Prime Time digital 7-day timer is used to turn electric locks or other security systems on and off at programmed times. A 10-amp DPDT relay can be operated in toggle or pulse mode at selectable times during the week, with 12 programmed on/off times set daily, on selected days, or on blocks of days. The exclusive "First Man In" feature delays operation until an external switch changes state which automates holiday programming in many applications. Operates on 12-24 volts AC or DC. An AA cell provides five year backup to the display module program memory.

SO-DT7 .....$252.00

Digital Entry Pad

The SO-DK-26 features a fully waterproof design that can mount directly on a Narrow Stile door frame. Operates a 5 Amp DPDT relay to switch any type of fail-safe or failsecure electric lock. Power for the unit is 12 to 24 volts AC or DC and is typically powered by the same source that is used to operate the locking device.

SO-DK-26..... .$234.00

SO-MK

SO-MKN

Mortise Keyswitch

Accepts standard mortise cylinder (not included). The switch is activated by turning the key in one direction and then turning it back for removal. Both standard and tamper screws are furnished. Includes a spring-loaded momentary or push/on push/off alternate 5 Amp SPDT switch. A red/green bicolor LED operates on 12 or 24VDC.

SO-MK $144.00

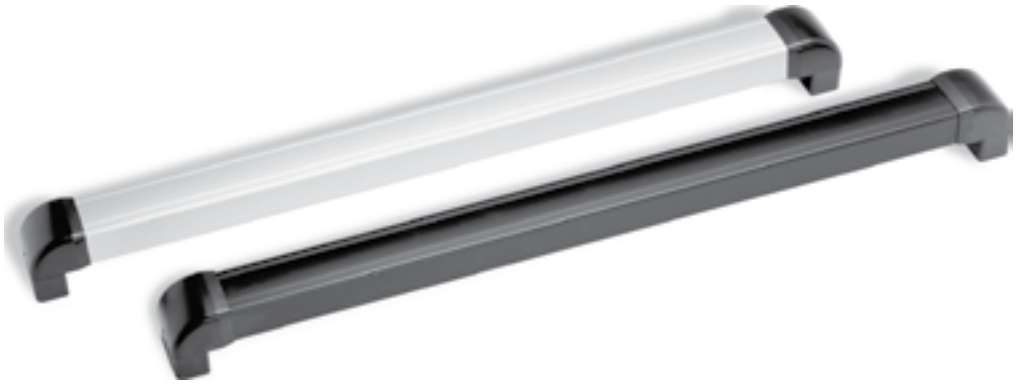

SO-MKN $144.00

Bridge Rectifier

Converts an AC input to full wave rectified DC output with a maximum 7 Amp capacity.

SO-BR4 ..... $36.00

Touch Sense Exit Devices

Unique Touch Sensitive Exit Devices For Use With Magnetic Locks

On magnetically locked, non fire-rated doors, most building codes require an exit device that does not require any special tools or knowledge. Securitron's patented Touch Sense Bar is the perfect device for this requirement. The simple act of touching the bar (even through gloves or clothing) trips an electronic sensor which immediately releases the lock.

SO-TSB-3CL.....Clear Finish.....$456.00

SO-TSB-3BK.....Black Finish.....$468.00

Emergency Exit Button Single Gang W/30 Sec. Timer

Timer Integration

SO-EEB2 ..... $156.00

Single Gang Digital Keypad Entry System

The DK-11 is a one piece unit intended for lower security requirements. It is furnished on a single gang brushed stainless steel plate with retrofit backbox. The keypad provides true 10 digit operation and includes red and green signaling LED's. The unit runs on 12 or 24 VDC power and control output is via an integral 5 Amp SPDT relay for operating fail safe and fail secure lock.

SO-DK11.....Clear Finish $204.00

Electro-Magnetic Locks

Magnalock® electromagnetics are designed to secure any type of door or gate that closes against a fixed stop. The product consists of an electromagnet which mounts on the fixed frame and a strike plate which mounts on the moving door or gate. The strike plate is delivered with fasteners that permit it to flex so that when the door closes, it automatically self aligns with the magnet.

Model SO-M62 has a holding force of 1200 lbs. and operates on 12 or 24VDC. Model SO-M62SC provides a lock status sensing signal that indicates when the door is secure.

SO-M62 ..... $522.00

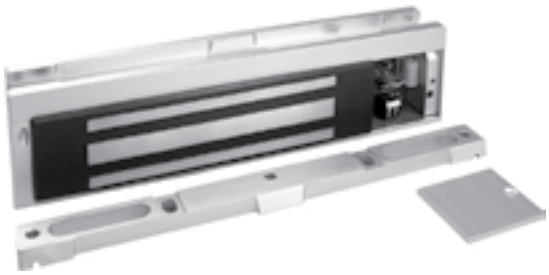

Magnetic Bond Sensor

Magnalock 600lbs

Securitron's new BondSTAT Magnetic Bond Sensor delivers superior Magnalock monitoring capability for unparalleled security. Unlike typical door position switches that indicate whether or not a door is closed BondSTAT also notifies the access control alarm system that the door is secure.

SO-M32B $564.00

Magnetic Door Position

Like Securitron's Model 32 Magnalock, the M38 provides 1200 pounds traffic control security and is recommended for applications where physical assault on the door is not expected, like access controlled interior rooms and secure areas within buildings.

SO-M38D $490.80

SO-M68DS $564.00

Magnetic Bond Sensor

Magnalock 1200lbs

The Model 62 series offers higher security with 1,200 pounds holding force. Entry cannot be forced without special tools, or before the door or frame gives way. It's recommended not only for high security openings, but for outdoor use on all gate types, too.

SO-M62BD $678.00

Magnetic Bond Sensor

Magnalock 1800lbs Door Position Switch

Magnalock with automatic dual voltage and magnetic bond sensing function standard. Preferred by prisons and detention facilities, and also functions best on large, high security gates.

SO-M82BD $792.00

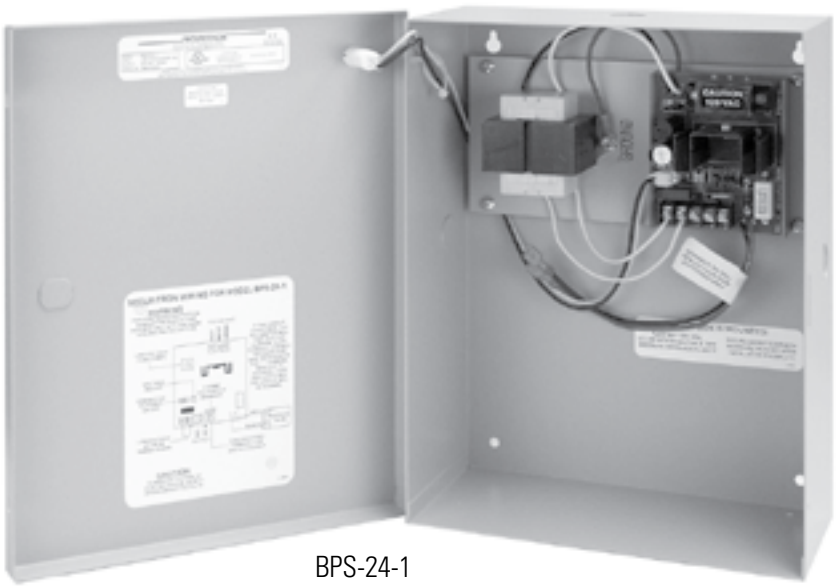

Series Power Sources
UL listed - Integral battery charger - 1 Amp capacity - 12VDC

SO-BPS-12-1.....$252.00

BPS-12/24-1

BPS-24-1

Series Power Sources
Securitron manufactures a variety of outstanding products designed to supply and monitor 12 or 24 Volts for the operation of security and safety equipment. The BPS Series DC Power Supplies include battery charging capability with capacities from one to 15 Amps. The BACS Series provides high capacity 12 and 24 volts AC power. The model PSM Power Supply Monitor functions as an alarm system for your BPS series supply and our plug-in DC supplies and potted bridge rectifier fit into simpler applications.

SO-BPS-12/24-1 .....$312.00

SO-BPS-24-1.....$252.00

Electro-Mechanical Gate Locks
2000 lbs, Fail Locked

The GL1 electro-mechanical gate lock is designed to secure a wide variety of vehicle and pedestrian gate application where security and weather resistance are required.

The GL1 functions equally well in both electrically and manually operated gate installations and can be used for swing gates, sliding gates, stock gates or other applications.

SO-GL1.....$372.00

Electromechanical Maglock
4000 lb. Door Position/Tamper Switches Option

MM15 is a 4000 lb. holding force dual voltage, dual current Maglock for interior or exterior doors. It is fail safe, but can be installed with a battery backup power supply.

E-Plex™ 5000

The E-Plex 5000 Series combines the strength, simplicity and reliability of Simplex mechanical pushbutton locks with the added security and features of electronic access control. The lock controls access with up to 100 Access Codes. Exterior access is by combination or key override, and egress is by interior lever and is free at all times.

User access can be programmed at the lock or managed with optional easy to use point and click Microsoft Excel™ software.

Simple to install. Requires no wire through the door. Uses four "AA" batteries that provide up to 180,000 cycles.

Cylindrical Lock w/key override, Winston levers, 26D finish

SI-E5031-XK-WL-626 ..... $810.00

Mortise Lock w/key override, Winston levers, 26D finish

SI-E5061-XK-WL-626 ..... $954.00

E-Plex® 5200 Series, 3,000 Access Codes

SI-5200 ..... $960.00

E-Plex® 2000 Electronic Pushbutton Locks

PIN access eliminates the cost and problems of issuing and managing keys or magnetic cards. You will no longer need to collect or change credentials each time there is a user change or a credential is lost or stolen.

> 100 access codes – including user and service levels

> Cylindrical latch
- – 2 3⁄8" (60 mm)
- – 2 3⁄4" (70 mm)

> Simple to install and maintain

> Easy to manage – no software required

> Key override options
- – Small Format Interchangeable Core
- – Key-In-Lever, Schlage C Keyway
- – No key override

SI-2031BLL-62.....$570.00

Mechanical Pushbutton Access Simplex® 5000

The latest addition to the line of mechanical pushbutton locks, the Simplex® offers unparalleled strength, convenience, and flexibility. Exterior access is by combination. Egress is by interior lever and is free at all times.

> ANSI/BHMA 156.2 Grade 1 Certified

> Extra Heavy-Duty internal drive parts of cast stainless steel.

> Key Override.

> Non-handed.

> Easy to install.

> Fits doors 1-3/8" to 2-1/4" thick.

> Covers Kaba Ilco 1000 & L1000 cutouts.

> Fits standard 161 cylindrical lock prep with minor modifications. 2-3/4" backset

SI-5021XKWL-26D.....$608.00

E-Plex® 5000 Series

Electronic lock with dual credential capability—PIN and/or PROX card (HID, 125khz, 26 to 84-bit format). Lock is scheduled to require credentials based on security and convenience requirements.

> PIN/PROX or Dual Credential

> Electronic Pushbutton/Card Access

> 3,000 Access Codes

> 30,000 Audit Events

> Access Schedules

> Simple installation with no wires through the door

> Fits Door Thickness of 1 3/8" – 2 1/4"

> ANSI/BHMA Grade 1 Certified

> 3 Year Warranty

SI-5700 ..... $839.80

SS-2197.....$15.54

Standard Weight Plain Joint Hinge

For use on internal or external doors without door closers in hospitals, churches, schools, airports, hotels, malls, apartment houses, office building, etc. All hinges have template screw hole location for use on either wood or hollow metal doors and frames. Equipped with easily seated non-rising pins.

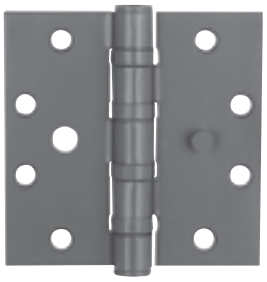

4½" x 4½" – Prime Coat

SN-F179-4.5-USP .....$17.90/ea.

Heavy Weight – Ball Bearing Hinge

For heavy doors or doors where high frequency is expected, such as entrance doors to office buildings, stores, public buildings and corridor entrance doors to offices. All hinges have template screw hole location for use on either wood or hollow metal doors and frames. Equipped with four permanently lubricated non-detachable ball bearings and with easily seated, non-rising pins. Heavy weight gauges increase available bearing surface area for maximum friction reduction. Equipped with sleeve bearing for lateral support.

4½" x 4½" – Prime Coat

SN-FBB168-4.5-USP.....$44.80/ea.

6" Zinc Plated Foot Bolt

For use on cabinet, double screen, garage and industrial doors. Operated by pressure of the foot on the cap. Released by pressure on the tip. When released, the bolt is retracted by a strong hard-drawn wire spring.

SN-CD1056-6-2C $18.54

Standard Weight – Ball Bearing

For medium weight doors of average frequency. All hingeshave template screw hole location for use on either wood orhollow metal doors and frames. Equipped with twopermanently lubricated non-detachable ball bearings andeasily seated, non-rising pins.

4½" x 4½" – Prime Coat

SN-FBB179-4.5-USP.....$32.50/ea.

Steel Standard Weight Spring Hinge

Ideal for use in corridors, entrances and stairways. Automatically closes doors. Patented ratchet adjustment eliminates need for adjustment locking pin. UL listed for doors up to 4' x 8' weighting up to 180 lbs. Ratchet design allows for quick fine tuning tension up or down with Allen Hex key. conforms to ANSI/ BHMA Standard A156.17

SN-2060R-4.5-26D.....$36.90/ea.

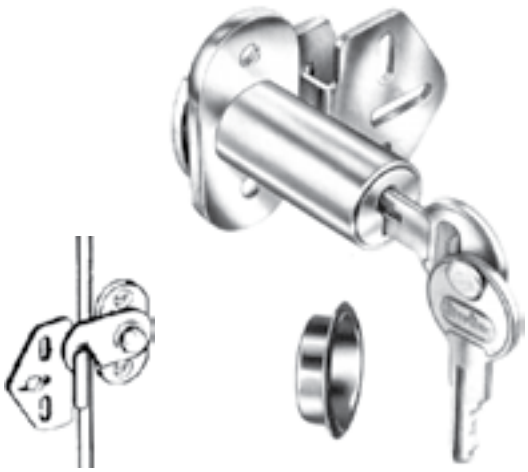

SN-2060R-4.5-3.....$39.50/ea.

6 ½" Zinc Plated Heavy Duty Padlockable Spring Bolt

Padlockable to create an effective barrier against unauthorized entry in either vertical or horizontal applications. Strong stainless steel spring holds bolt in latched position. Case and surface strike can be thru-bolted with ¼" carriage bolts (not provided) to enhance security. Furnished with surface and universal strikes.

SN-CD1088-6.5-C $18.01

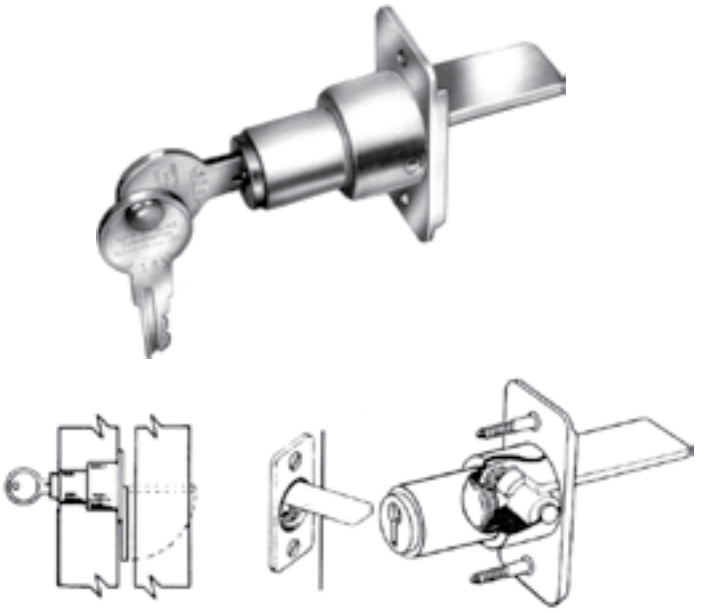

Folding Door Lock

Positive locking action. Easy to mount. Only one ¾" hole needed in one door. Strike is mounted on back side of opposite panel or on striking jamb. Key may be removed in either locked or unlocked position. Two keys supplied with each lock.

Fits doors ¾" to 1½".

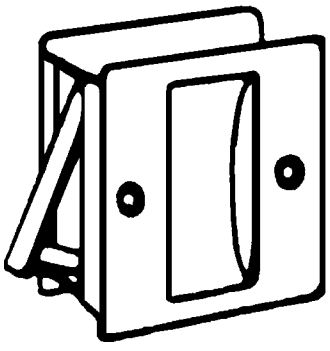

SG-1064-3.....$26.62

Sliding Door Locks

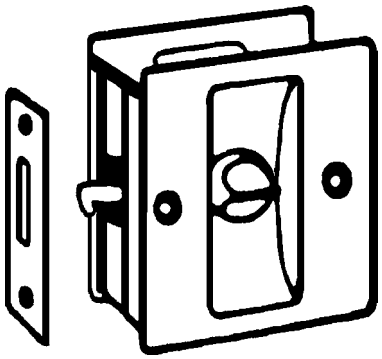

Patented, positive-action design with lock cylinder geared directly to the tongue. One-half turn of key locks or unlocks. Fits doors ¾" to 1¾" thick. Two keys supplied with each lock.

Superior Lubricant Pin Point Lubricator

Tri-Flow Superior Lubricant provides twice the lubricating power of most competitive brands. Its light viscosity allows for deep penetration into hard to reach moving parts. High grade petroleum oils provide optimum lubrication under extreme temperatures (-60 to 475F) and humidity. Formulated solvents soften and remove dirt and contaminants, while special additives displace moisture and prevent rust and corrosion.

> Ideal for loosening rusted and corroded nuts and bolts

> Excellent for lubricating chains and all pivot points

99 Series Exit Devices The VD-99 Series exit devices are suitable for all single and double door applications (rim and mortise devices require a mullion for double door applications). All 99 Series devices are non-handed (the mortise device is field reversible), field sizeable and come standard with hex key dogging. Exit devices are quoted less trim in 26D finish. To order with trim, include trim design number. I.E. – VD-99TP-26D (designates the rim device with the thumbpiece escutcheon trim) Pricing for 26D finish – call for other finishes. Prefix the model number with "EL" for electric latch retration (i.e. VD-EL99-26D). Prefix the model number with "CD" for cylinder dogging option (i.e. VD-CD99-26D). All models available 4' wide.
